

Air Sensors International Conference

Hosted by the UC Davis Air Quality Research Center

University of California, Davis
Air Quality Research Center's

Air Sensors International Conference

September 12-14, 2018
Oakland Convention Center

The air sensors international conference is structured to benefit all sectors concerned with air quality and our sponsorship packages are no different. Each sponsor will have the opportunity to highlight their efforts towards improved air quality in society through different means. While our primary sponsorship packages are listed, customizable packages are available to suit each sponsor's needs. This conference is about collaborating for a better world, so please collaborate with us to build the right environment to showcase your support.
